### Summary of reasons for decision:

The computer mage file printout is deemed objectionable because it promotes and supports the exploitation of children for sexual purposes.

The printout has a black and white photographic image showing a man involving a young boy in a sexual act. The source of the image is the Internet. The image is direct visual record of the criminal abuse and exploitation of a child. It is intended for the titillation and arousal of those with a sexual interest in children. The availability of such images encourages this sexual interest and perpetuates the belief that children may be used for adult sexual gratification.

The classification of this publication interferes with the right to freedom of expression set out in the New Zealand Bill of Rights Act 1990. However, this is an outcome that is consistent with Parliament's intention and is a reasonable limitation on the freedom of expression. The classification reflects the concern of a free and democratic society to protect its young and vulnerable members from sexual exploitation.
